

# Record Horrorscopes

**Aries: (March 21 – April 20)**

Some say that Heaven is a place on Earth. Hell on the other hand...well, you'll find out on Tuesday.

**Taurus: (April 21 – May 20)**

There will be a new love in your life, and by "love" we mean "death," and by "life" we mean "family."

**Gemini:**

**(May 21 – June 21)**

Death. Cold, cloying. It mocks us all, fearsome and black. Across the grey sky he soars, diving thunderously to tear us from the Earth.

What do I care? The world is wretched. Why does nobody like me? Don't judge me you prep, I'll kill you. Marilyn Manson rules. You suck, mainstream bitch.

**Scorpio: (October 24 – November 22)**

In a frenzied rage, you will shoot the bastard sleeping with your wife. But hey, look on the bright side, at least she wasn't cheating on you.

**Sagittarius: (November 23 – December 21)**

Look out behind you! Oh, fuck.

**Capricorn: (December 22 – January 20)**

The winds of fate swirl furiously around you, but you are left unscathed. You're a Capricorn, right? So are we. Romance, fame, fortune and success are all within your grasp. Things are going to be great!

**Aquarius: (January 21 – February 19)**

Possible tension with a loved one. Now is the time to reassess your relationship. Imagination is key. Also, you're going to die. Horribly. Over and over again. That's right, you're going to die. Die bastard! You're going to die, and no one will mourn your passing!

**Pisces: (February 20 – March 20)**

Hold the fuck on, we're not done with you yet, Aquarius. You're going to die. Death, dismemberment, destruction! Oh, and Pisces, you're going to die too. But not as bad as Aquarius. ☹

**Cancer: (June 22 – July 23)**

How ironic. Need we say more?

**Leo: (July 24 – August 23)**

Things are going to suck for you. No, sorry, we're not even going to bother glossing over the cold truth with half-assed positive generalizations. Have you noticed a pattern so far? Yes, we know what you're thinking: "Well, maybe I'll buck the trend." The answer is no, you will not.

**Virgo: (August 24 – September 23)**

Your desire to die of natural causes will be granted when you become collateral damage in the organic revolution.

**Libra: (September 24 – October 23)**

Cloudy. 50% chance of rain, 70% chance of getting hit by a bus.
